Gentlemen:

Reference: Cease and desist from libel
Expunge libelous materials

This is sent to you regarding libelous items which have been disseminated regarding Charles Gregoire de Rothschild and his business (GDR Privee, Inc.). You are hereby notified of libel pertaining to them.

The facts include the following. A soured business relationship involving the principals behind [REDACTED] LLC, caused the failure of that limited liability company. The other principal (not Mr. Rothschild) unilaterally dissolved that limited liability company through procedures that included falsified information submitted to the Florida Department of State, through diversion of assets held by that limited liability company to a competitor, and through failure to account properly for the dissolution. These actions are the subject of litigation, including an appeal. The losses to [REDACTED] LLC included approximately \$170 million transferred to a competitive business.

There was a more sinister attack on Mr. Rothschild personally. By use of a maliciously-altered e-mail message furnished to police authorities, he was falsely accused of a threat stated in the altered e-mail (which he did not send in its altered form). When the alteration was revealed and had become apparent, he was exonerated by the investigating police authorities.

Mr. Rothschild's affiliation with the Rothschild family for his business purposes has been recognized by others having the Rothschild family name and conducting that family's businesses.

The history and background in the preceding paragraphs are provided for the following action requested of you insofar as you may be able to take such action:
(1) remove and expunge all libelous matters regarding Charles Gregoire de Rothschild and his business and (2) cease and desist from publishing all similar libelous matters in the future. The requested action will help in minimizing the damages for libel.

Please be governed accordingly.

Yours very truly,

Lawrence Klepetko
