PayPal Booster Professional

by Gheorghe Cena

Balance

$18,354.97 USD

(This is a screenshot of my Paypal Balance...yes, this is a lot of cash!)

Transform Your Paypal Account Into A Cash Generating Machine!

In order to serve you better, we have revamped and improved the **Paypal Booster Professional**. Now it's here and it's yours to own!

We pride ourselves on developing systems that make money no matter year it is. Some methods may work for a short while, but then it stops making money. To us, that is not providing value. Value is developing systems that are evergreen, systems that make money every day of the year, and every year, so as long as you keep doing the right things.

Before we get to the Paypal Booster method, there's a few things we want to touch on. Our refund policy is stated below. Simply put, Use the system for 30 days and if you don't make any money with it, we will refund your purchase price.

So to add a little more clarification, our refund policy does **not** apply to the following:

Buyer's remorse - those who buy a product, but end up regretting it because he thinks he'd be better off spending the money on other things

Serial refunders - these people know ahead of time that they are going to get a refund, before they even make a purchase. They are here to take advantage of other people's money back guarantees, and they just want to steal information.

Quitters - these don't do the right things, and give up too soon

We honor our refund policy once the criteria are met, meaning:
   ❖ 30 days has passed
   ❖ The method has been used
   ❖ No money has been made using the method

So when requesting a refund, please confirm that you have met the above criteria. But hopefully, you're not one of those above mentioned people. You want to use the strategy and do the work and get paid for your efforts.

The Paypal Booster System is a simple 3 step method that anyone can follow. So without further ado, we present to you the system that made the owner $18,000+ in revenue - and it can happen for you to. Enjoy!

STEP 1 - The Payment Processor

In order to get paid, you will need to have your payment processors set up. We recommend the following processors:

Paypal	Payza	Solid Trust Pay
http://www.paypal.com	http://www.payza.com	http://solidtrustpay.com

Most countries will accept either Paypal, Payza or Solid Trust Pay. If for some reason, your country does not accept those payment options, you can try alternative payment processors like Liberty Reserve or Neteller.

The good news is that you can use any payment processor with this system, you can even use more than one. It is up to you how you want to be paid.

You should sign up to all the above mentioned sites before moving on to the next step. Once you have decided on which payment processor to use, you will integrate your account information into the HTML page. This will be covered in step 2.

Now you have to create your blog. Go to this link for Blogger:
http://www.blogger.com

Go to account and click on the button labeled "New Blog" - then type a title and click "Create Blog" - now your blog is activated. Next, you will need to create a blog post, so go to "New Post" and click on editing HTML mode.

Inside the members area of Paypal Booster, you will see HTML files that you use to copy and paste into your blog. You can choose which file you want to use for your post. So copy the HTML from the sales page into the blog post and publish it.

http://www.blogger.com

You can also customize the sales page if you wish. Switch to editing text mode, make the changes you want, and click on "Publish" to finish.

STEP 2 - The Paypal Button

The next thing you need to do is set up your Paypal button on the sales page. First, you need to go to your download link, the one where you downloaded this PDF from. That link contains your username and password to log in. Make sure you jot down your username and password in case you need to use it in the future.

Next, you need to log into the members area of the website at http://pp-booster-system.com/members

Then you need to go over to "HTML Files" on the main menu. These are your sales pages that you will need to set up.

Sales Page - For One Time Offers
This one is for OTO's, a sales page that shows up only once after a customer makes a purchase from you.

Sales Page - For PTC Sites
These sales pages are for advertising on PTC sites. We will explain what these sites are in Step 3 of this guide.

Capture Page - For Building Your List
This one is optional. This is the code for your capture - this is good if you have a list of prospects or buyers. Use this capture page to get people into your email list and campaigns.

Now, what you need to do is update the code manually. Find the part that says "Paypal Button Code" and look for the part that says "your-paypal-account@email.com"

Replace that email with YOUR Paypal email address. This step is important, so don't mess it up, if you do, you will not get paid!

```
<!-- Paypal Button Code -->
<form action="https://www.paypal.com/cgi-bin/webscr" method="post" id="paymer
<input type="hidden" name="cmd" value="_xclick">
<input type="hidden" name="no_shipping" value="1">
<input type="hidden" name="no_note" value="1">
<input type="hidden" name="lc" value="US">
<input type="hidden" name="bn" value="PP-BuyNowBF">
<input type="hidden" name="rm" value="2">
<input type="hidden" name="business" value="your-paypal-account@email.com">
<input type="hidden" name="item_name" value="Paypal Booster">
<input type="hidden" name="item_number" value="7757100">
<input type="hidden" name="amount" value="2.99">
<input type="hidden" name="currency_code" value="USD">
<input type="hidden" name="notify_url" value="http://pp-booster-system.com/">
<input type="hidden" name="return" value="http://pp-booster-system.com/?actic
<input type="hidden" name="cancel_return" value="http://pp-booster-system.com

<input type="image" src="http://www.wpcells.com/wp-content/uploads/2012/05/Pa
"NoExitPage=true;">
</form>
<!-- Paypal Button Code -->
```

This code will ensure that customers who pay you will get redirected to the link where they can download the Paypal Booster.

In case this does not work, you can tell your customers to go to:
http://pp-booster-system.com/?action=download&id=vipuser

Only share that link for customers who pay. Do not give it away for free, or you will cheapen the value of the Paypal Booster.

After finishing the changes, publish your blog again. Now that you blog is finished and ready to go live, it's time to bring traffic to your newly completed Paypal Booster system. This step is easier than you think, so read on.

STEP 3 - Advertising

You should join Neobux in order to sell the **PayPal Booster Professional**. There are many advertising websites out there but Neobux is one of the cheapest and most effective PTC sites. This is how I have made more than $5000 in just a matter of weeks.

Neobux
http://www.neobux.com/?r=SanctuaryInc

To advertise on Neobux, go to your account and click on Advertisements. First, you have to select how many clicks you wish to buy, and the type of exposure. I recommend you start slow with $5 for 2500 clicks. Then, when you get some cash, you can advertise even more, and you earn more money every day just by using this method.

When you are done setting up the advertisement, you need to purchase clicks. It will take a few hours for your advertisement to be approved. Wait and see the magic that happens the next time you open your Paypal account…it will blow your mind.

Congratulations on setting up your first Neobux campaign. Once you log into your Paypal account, you will see the money pour in! And this is only the beginning… you should also check out these sites:

Clixsense
http://www.clixsense.com/?3373459

Clixsense is one of the most stable and trusted PTC Sites in the market today. They have over 2 million users in their database, which means tons of business for you. They have several options available, including PTC ads, sticky ads, and Clixgrid ads.

BuxP
http://buxp.org/?r=theemperor

Advertising on BuxP cost as low as $1.00 and your site will be seen site-wide. It has one of the cheapest rates in the industry, so get on board as soon as you can!

Linkgrand
http://linkgrand.com

These PTC websites will generate sales no matter what, because the market is interested in products which will generate money for them. You may also want to try advertising on networks like Adhitz.

Adhitz
http://adhitz.com

Adhitz has a huge network of thousands of sites, which means there are many advertising options available to you. You can buy banner ads or just use plain text ads to get your message across.

Traffic Exchange List
http://www.trafficexchangelist.com

Traffic exchanges are a great way to get free traffic to your blog. There are many traffic exchanges out there, and many of them are bad, they will just waste your time. The Traffic Exchange List is a website that ranks all the traffic exchanges based on their quality of service. Go to that site to see what the top traffic exchanges are.

The sky is the limit for you and you can sell *PayPal Booster Professional* product anywhere and replicate what I have done in less than a few weeks. Remember, once your blog is ready and your ad is on Neobux and these websites, money will literally explode in your PayPal account.

Regards,

Benjamin Louie
